

AMO at 10

A Decade in Medicine. A Decade of Opportunity.

AMO's first decade has come and gone. We reflect on where we began and celebrate where we are now.

A Diversifying Team

AMO's team is at the heart of who we are.

45 AMO Employees March 2023

Growing the Future Healthcare Workforce

Access to medical education should be simple and equitable. Over the years, AMO has helped expand access to students across the globe.

272 AMO Trainees 2016*

1,419 AMO Trainees 2022

*First year of recorded data

4,200 Total Trainees (and counting)

Where Trainees Come From

AMO trainees don't come from one place. Over the past decade, **123 countries** have been represented by AMO trainees.

Top Countries Over the Years

Where Trainees Go

Year-in and year-out, the same states remained popular among AMO trainees. But those states were spread out across the country. The most popular states over the past decade were:

Partners in Education

From schools to clinical sites, our partnerships with medical educators in the U.S. and globally are dedicated to supporting the next generation of healthcare leaders.

School Partners

47 Global School Partners
First Global Medical School Partner: 2018

16 U.S. Partners
First U.S. Partner: 2021

Clinical Partners and Preceptors

First Clinical Partner: 2019

21 Clinical Partners Today

255 Total Preceptors

309 Total Programs

Future-Forward Opportunities

Rotation Type

When AMO launched, trainees were able to choose from hands-on or observership rotations. Today, trainees can choose from several rotation types. Check out how our rotations have grown over the years:

Match Success

In 2019, AMO began keeping up with trainees' medical journeys after their AMO rotation. What we found is that AMO trainees find success in the Match.
